### MEXICO'S SUSPENSION OF CASH PAYMENT INDICATES COLLAPSE

London, Dec. 22.—The Daily News in an editorial on the Mexican situation considers the suspension of cash payments by the banks an indicative of the approaching collapse of the Huerta regime, and gives credit to President Wilson's "retained policy" for preventing Mexico falling under the level "of another dangerous military despotism." It hopes that no consideration will be given to more of Huerta's financial schemes.

#### Fear a Meat Famine.

Paris, Dec. 22.—A meat famine is threatened in Paris during the Christmas season. The slaughterers' union has decided upon an immediate strike as a result of the refusal of the employers to renege 75,000 tons, or 120,000 tons to a 10-hour day.

## EMPRESS OF JAPAN EXPERIENCES VERY TEMPESTUOUS TIME

Reaches Yokohama Four Days Behind Scheduled Time—of Steamer.

### HUGE SEAS SWEEP OVER THE STR. MOUNTAINEER

Forced to Heave to for a period of Twenty-four Hours in Storm.

Vancouver, Dec. 22.—A hard trans-Pacific voyage from Victoria to Yokohama was reported by the Empress of Japan, Captain Hecroft, which reached Yokohama four days behind scheduled time. The officers of the ship say there were only 25 tons of coal left in the Japanese port. Continuous heavy weather had buffeted the ship for many days and the boat, together with the mountainous seas, held her back.

At the days were by, the firemen and coal passers watched the coal pile dwindle down and the officers realized that another prolonged storm would put them in a very bad way.

Finally, Yokohama was made, and as the humpers were examined to get an estimate

## Next To Consumption.

There Are More Deaths From PNEUMONIA Than Any Other Lung Trouble.

Pneumonia is nothing more or less than what used to be called "Inflammation of the Lungs."

Consumption may be contracted from others, but as a rule pneumonia is caused by exposure to cold and wet, and there is only one way to prevent pneumonia, and that is to cure the cold on its first appearance.

Dr. Wood's Norway Pine Syrup will do this for you if you will only take it in time.

Mrs. Wm. M. Stevens, River Glade, N.H., writes: "Please allow me to express my gratitude for the presence of Dr. Wood's Norway Pine Syrup in my house, for I believe it saved our little boy's life. Three years this fall we were in the lumber woods, and was very likely to get a doctor to us, and our little boy got pneumonia, and was very ill. The only relief he could get was to take Dr. Wood's Norway Pine Syrup. With the combined use of the Syrup, and your British Troop Oil Liniment, he soon got better, and was around in a couple of weeks. It certainly is a great remedy."

Be sure and get "Dr. Wood's" when you ask for it. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

It was found that there was a mere pile of 23 tons left.

### Montage's Rough Passage.

With haze sweeping over her and threatening to sweep her deck fittings and cabins, the big C.P.R. steamer Montague, Captain Bailey, had to move to mid-Pacific on her present voyage.

The officers of the ship say there were only 25 tons of coal left in the Japanese port. Continuous heavy weather had buffeted the ship for many days and the boat, together with the mountainous seas, held her back.

At the days were by, the firemen and coal passers watched the coal pile dwindle down and the officers realized that another prolonged storm would put them in a very bad way.

Finally, Yokohama was made, and as the humpers were examined to get an estimate

### UNCLE SAM PLACES EMBARGO ON SPUDS FROM THIS COUNTRY

Washington, Dec. 22.—Secretary Houston today issued an order continuing the quarantine put temporarily into effect September 20, last, forbidding potato importation from the British Isles, Canada and all other countries.

This action was modified, however, by a second order, under which the quarantine may be raised, under proper regulation and protection from foreign countries or districts which can show that they are free from potato wart and powdery scab, the two diseases which the department of agriculture aims to keep out of the country.

The first order becomes effective December 24, but will admit until January 1 next potatoes covered by consular invoices issued on or before Wednesday next. The second effective January 2 next. Representatives of various countries affected appeared at the hearings recently held at the department and protested against the quarantine.

In the case of certain provinces in Canada, and certain countries of Europe, the officials here believe the potato prohibition can be lifted in time to allow the movement of the crop under regulation and inspection which, under the secretary's order, is similar to that for nursery stock.

### COOK ACCUSES PEARY OF BEING GUILTY OF ATTEMPTED MURDER

Theft, Immorality and Perjury Also Included in the Charges, and Declaration is Made That He Left His Two Little Sons to Die of Starvation in the Far North.

Toughspee, Dec. 22.—In a lecture given at the Collingwood opera house here last night, Dr. Frederick Cook charged Admiral Peary with theft, immorality and perjury, and dared him to disprove the charges in court or to surrender the uniform of an American navy.

Dr. Cook was describing his return from the North Pole at the end of a year in the Arctic wilds, and said that upon the arrival of himself and two Eskimos at Greenland, where they had left enough supplies for a number of years, they discovered that the supplies had been taken. Dr. Cook charged Admiral Peary with having taken the supplies and having deliberately left the Cook party to starve.

"In other words," said the doctor, "it was an attempt to murder."

Dr. Cook further charged that Admiral Peary had deserted two little boys, his own sons, 25 miles south of Elbow, and had left them to starve in the ice-bound north. He added that they are still crying for food and a father there. He also intimated that Peary had been guilty of worse practices than traffic in white slaves, it being understood that the reference was to Eskimo women.

Finally he declared that a trail of bribery and perjury led to the door of Admiral Peary in the concerted attempt to discredit Dr. Cook's climbing Mount McKinley. He said that Edward Barrill, who climbed Mount McKinley with

## HEADACHES ALMOST DROVE HER WILD

Until A Friend Advised Her To Use "Fruit-a-Lives"

NEWBURY, ONT., May 29th, 1913. "About four years ago, I was in a dreadful run-down condition, weak and hardly able to walk up stairs. Weakness peculiar to women was the chief trouble. I had headaches that almost drove me mad and most distressing constipation. I took many dollars' worth of medicine from the doctors without any good results.

A neighbor advised me to take 'Fruit-a-lives' and they proved to be the best medicine ever got and I found myself able to do my own good. Today, I feel as a young girl, and am able to go about my household duties as usual. My health is splendid and 'Fruit-a-lives' has done it all." Mrs. Wm. CRIM, 50c a box, 6 for \$2.50, trial size, 35c. At all dealers, or from Fruit-a-lives Limited, Ottawa.

## SANTA CLAUS SEEN IN SUNDAY SCHOOL

Arrived at Metropolitan at 10 O'clock Sharp Last Night.

## GREETED MANY CHILDREN

Classes Present Interesting Program to a Large Gathering.

The annual Christmas tree and entertainment of the Metropolitan Methodist church was held last evening in the church auditorium. Following a very excellent programme of recitations, drills, choruses and solos, Santa Claus made his appearance dressed in the usual garb and was greeted enthusiastically by hundreds of children who were waiting every nerve to see a look at old Santa. When ushered into the church he paraded once around the pews and then proceeded to the platform where he greeted a number of the children, told them how glad he was to meet them again and then proceeded to distribute to them the bags of candy, nuts, oranges, etc.

On either side of the platform was a large Christmas tree decorated with colored electric lights and loaded down with bags of good things for the children. At the conclusion of the program all the children, numbering between four and five hundred, marched up one by one to the platform where they received each a bag of candy; they then passed down the opposite side.

There were 20 numbers on the program and every one was good and not only the children but also the large gathering of grownups were entertained with the clever work of the children. Rev. Letch and Superintendent Tucker, in charge of the platform, and everything was handled very satisfactorily.

## TYPHOID TREATMENT IS REVOLUTIONIZED BY NEW TREATMENT

Paris, Dec. 22.—Professor Chauvenet and Dr. Lucet announce an important discovery which they claim will revolutionize the treatment of typhoid fever, whooping cough and other diseases by vaccines.

They have found that the bacilli, on being subjected to movement becomes much more abundant, and active, enabling the preparation of vaccines of greatly enhanced efficacy. They have devised an apparatus to keep the cultures in constant motion.

## RAMPOLLA'S WILL AND OTHER PAPERS HAVE DISAPPEARED

Consternation Has Been Created at the Vatican by the Incident.

ONLY OLD WILL HAS BEEN FOUND SO FAR

Document Leaves His Estate Among Dignitaries Long Since Dead.

Rome, Dec. 22.—Consternation has been caused at the Vatican not only by the mysterious disappearance of Cardinal Rampolla's will, but also by the absence of diplomatic documents of extreme importance.

Since the late cardinal left the state apartments at the Palace at the onset of the present pontificate in 1903, a number of confidential papers have found their way into the hands of persons outside the Curial circle. Not long before his death, Cardinal Rampolla was amazed at seeing a famous letter addressed to Cardinal Caltagirone published textually in a volume of lay memoirs, dealing with the political affairs of the late Pope.

As for the missing will, only an old one, drawn up 25 years ago, has been found, disposing of the cardinal's fortune of \$140,000 among Pope Leo XIII, various cardinals, members of the Rampolla family and domestic servants, nearly all of whom have long been dead.

While Cardinal Rampolla evidently attached no further value to this will, which came to light among a heap of discarded odds and ends he carefully left his writing desk, a small key with a label attached, on which it was stated in the Cardinal's handwriting that the key was that of a black box inside a wardrobe in his bedroom, containing his last will.

Since the cardinal's death, his villa has been searched in vain for the will.

## HUERTA STOPS RUN ON THE BANKS BY MAKING EVERY DAY HOLIDAY

Mexico City, Dec. 22.—By a presidential decree issued yesterday afternoon, every day, including today, until the end of the present year, is made a legal holiday in order to check the run on the banks here, particularly that on the bank of London and Mexico.

On the promulgation of this decree the Bank of London and Mexico closed its doors, but refrained from paying deposits.

Provisional President Huerta, in the decree, says he deems such action necessary in order to protect the banks until the public confidence is more nearly restored. The banks, by this decree, are absolved from meeting any obligations until January 2. It applies to all banking houses, whether a bank of issue or not.

With the exception of the bank of London and Mexico, and the Central bank, none has yet taken advantage of the decree and business at the other institutions continues as usual. Crowds gathered about the doors of the two banks mentioned, but there was no disorder. The banks are being guarded by a strong force of police.

# DR. PRICE'S CREAM BAKING POWDER

A pure, healthful, Cream of Tartar Baking Powder

When buying an article of food you are entitled to know exactly what you are buying—its quality and ingredients.

If this information is refused don't buy it. Some of the low grade baking powders are advertised, but the ingredients of the powders are scrupulously concealed.

A housekeeper would not use a baking powder containing alum if she knew it.

It is well when buying to examine the label on the can. Unless it shows the ingredient cream of tartar, don't buy it.

Dr. Price's baking powder is absolutely free from alum.

## Two Days Public Auction Sale of Furs and Skins

All the above are mounted and cured, and are the finest collection ever offered to the public.

DALLAMORE & SLADDEN, Auctioneers.

# VALIDITY OF ARMS PROCLAMATION IS CAUSING WORRY

Attorney-General Simon Issues  
Denial That It Is Ultra  
Vires.  
OFFICIALS ARE CALLED  
IN FOR CONSULTATION  
Dublin Castle Shows Keen De-  
sire to Dissociate Itself  
From Order.

London, Dec. 22.—The Times gives prominence this morning to a communication from Attorney-General Simon, denying that the proclamation forbidding the importation of arms into Ireland is ultra vires, because the shipment of arms into Ireland from other parts of the United Kingdom cannot be called importation within the meaning of the act of parliament on which the government proclamation is based.

The Dublin correspondent of the Times says Dublin castle officials have sent out the statement, but he adds that this denial is not accepted unreservedly by those who know what is happening in Ireland.

The government, the correspondent adds, is very anxious about the validity of the proclamation and officials have been summoned from Ulster to hold a convention.

No one expects the government to admit it has blundered, he says, "but it is taking steps to retire as gracefully as possible from an untenable position. The reality of the war for arms is being relaxed and it may be taken for granted that the searching will soon cease."

"The government is apprehensive that some body in Ulster will take the validity of the proclamation in the courts. Castle officials are showing a keen desire to be dissociated from the proclamation."

## MANY REASONS WHY LIQUID COUGH MIXTURES CAN'T CURE BRONCHITIS

But the Healing Fumes of Catarrhoe, Which are Breathed to the Furthest Recesses of the Branchial Tubes, Bring Quick Relief and Sure Cure.

Every sufferer from coughs, colds, bronchitis and all throat and chest ailments needs a soothing, healing medicine which goes direct to the breathing organs in the chest and lungs, attacks the trouble at the source, disperses the germs of disease, and cures the ailment thoroughly. And this medicine is "Catarrhoe."

The germ-killing balsamic vapor mists from the throat, descends through the trachea, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All parts are soothed with rich, pure, medicinal essences, "virescent" with a syrup the affected parts could not be reached, and the warm result with the burning of the stomach with drugs.

"I have been a chronic sufferer from catarrh in the nose and throat for over eight years. I think I have spent four hundred dollars trying to get relief. I have spent but six dollars on Catarrhoe, and have been completely cured. In fact, I have been well for some time. Catarrhoe is the only medicine I have been able to find that will always cure permanently. Yours sincerely, (Signed) WILLIAM HAGAN, Brockville, Ont."

For absolute, permanent cure, use Catarrhoe. Twenty months' odd costs, less smaller size, 50c, at all stores, druggists and druggists, or The Catarrhoe Company, Buffalo, N.Y., and Kingston, Canada.

## JAPAN WILL BE FIRST TO LAND MEN IN MEXICO

Probable Their Blue Jackets  
and Marines Will Lead  
in Capital.

**CRUISER ARRIVES AT  
PORT OF MANZANILLO**  
Minister of War Declares Un-  
conditional Surrender Re-  
bels' Best Hope.

Mexico City, Dec. 22.—Of all the foreign warships which have arrived at Mexican waters, it appears probable that the Japanese cruiser Idzumi will be the first to be represented by marines and blue jackets in the Mexican capital. The cruiser reached Manzanillo yesterday and it was announced at the national palace that a contingent of Japanese will start for Mexico City this week.

Unconditional surrender is the best that any of the rebels can hope for, according to General Blanquet, minister of war. The minister in reply to questions regarding the rumor that the government intended treating once more with Emiliano Zapata, declared that it would ever negotiate again with any of the rebels.

In other forces, which recently landed at Altata, a coast town of Sinaloa, marching inland, attacking and defeating the rebels north of Culiacan, according to the war office.

## RUNAWAY CARS JUMP TRACK AND COLLISION IS NARROWLY AVERTED

Cranbrook, B. C., Dec. 22.—Two flat cars loaded with live broke away from the leaders on a spur at Kootenai, 20 miles west of here last night and ran six miles on a down grade to the main line. When within a quarter of a mile of the main line, the runaway cars jumped the track and a head-on collision was averted only by a miracle. The runaway was travelling at a terrific speed and made a clear jump without touching the track.

St. Petersburg, Dec. 22.—The occupants of the balloon Lotosh, which descended from the European Union, were arrested last night on their arrival at Moscow by train on suspicion of espionage.

## COST OF TELEPHONES IN U.S. WOULD BE \$800,000,000.00

Would Present No Greater Dif-  
ficulties Than Financing  
Panama Canal.

LEWIS DOES NOT WANT TO  
TAKE TELEGRAPH LINES

Telegraph Rates Are Higher  
Than in Twenty Other  
Countries.

Washington, Dec. 22.—Government ownership of the nation's telephone lines would cost less than \$800,000,000 and would present no greater difficulties of financing than did the Panama canal, Representative Lewis of Maryland, told the house yesterday in an exhaustive analysis of his proposal to have these lines operated by the post office department.

Representative Lewis, who took a leading part in the establishment of the parcel post, which he has made a study, with post office officials, of the ownership of the electrical lines of communication, does not propose to have the government take over the telegraph companies. His plan is to have the government first own the telephone network of the country, and operate some of the telephone lines as telegraphs, as is now possible under modern technical conditions, and have the government system compete with the private telegraph companies at the outset in the same proportion as the parcels post now competes with the express companies.

"The severance of the laws of public and private financing," said Mr. Lewis, "by which the telegraph companies have been deprived of their normal functions, has led to such corruption and extravagance that the rates in New York with its street railways, Philadelphia with its gas works, and San Francisco with its telephones, has surpassed the rates of Roman corruption in their most disreputable days."

**Highest Among Countries.**  
"Investigation discloses that our telegraph rates are the highest among 26 countries. The result of these abnormal rates is that we rank but ninth as telegraph users."

"Under the conditions it appears that our postal rates average lower than other countries, and the system of letters here is the highest in the world."

"The telegraph companies seem to be locked in institutional economic or efficiency. The operation of sending a telegram is loaded down with 74 incidental services and processes, not less than 50 of which would be repaid by affixing the postage stamp."

"A striking feature is the discovery that the telegraph service is a relatively declining institution and that it would be unwise to maintain it, if alone, and as a single service. To take over the telegraph lines alone and operate them merely as telegraph lines might result in postal bankruptcy."

"But our toll and long distance telephone rates compare with those of other countries even less favorably than telegraph rates. It is not unfair or inaccurate to say that the American national telephone rates are the scandal of public service rates in the world over. The American telephone monopoly takes the thirteenth place among 17 countries with regard to the burden of its rates."

"The local rates of all twelve telephone monopolies are just twice the average charge in other countries," continued Mr. Lewis.

"While our postal rates give us the first rank in lowest charges, this country ranks but fourteenth among 16 countries with its local charges, and we are one of three countries where the charge per local call exceeds the letter postage rate."

"The local rates of all twelve telephone monopolies are just twice the average charge in other countries," continued Mr. Lewis.

"While our postal rates give us the first rank in lowest charges, this country ranks but fourteenth among 16 countries with its local charges, and we are one of three countries where the charge per local call exceeds the letter postage rate."

## Gives up Hope Because of Drink

The drink habit is a discouraging habit both to the drinker and to the drinker's family. Drinking men promise themselves and their families they will stop drinking, but always fail to do so, because the craving for drink is stronger than the will power to resist. If you are discouraged by repeated failures to stop drinking, investigate the Neal Institute. Treatment, which is a sure, harmless, vegetable remedy that removes the craving in three days without the use of hypodermic injections. Call or write for full particulars. Get our proof that the Neal Treatment will make you a sober man. Write or call the

## CANADIAN MAIL HAS GROWN PHENOMENALLY BUT NOT SURPRISING

London, Dec. 22.—Francis Salisbury, who has just retired from the postmaster's office of Liverpool after many years' service, had some interesting observations to offer to the Canadian Associated Press regarding the growth of the postal service in the Dominion.

"When I came to Liverpool in 1892," said Mr. Salisbury, "the Canadian letter mail was quite small—it was as heavy as many New York mails were then, and the growth of the parcel post has been phenomenal. It does not, however, surprise those who have been in Canada and seen the 'summer cities' such as Coleraine, Edmonton, Saskatoon, Winnipeg and Port Williams. I have just returned from a tour through Canada, from Victoria to Montreal, and during my seven weeks in the country I had many opportunities of observing and appreciating the progress it has and is making."

## THE PRODUCTION OF NEW WHEAT

Three billion, five hundred and sixty-nine million bushels was the world's production of wheat this year, an aggregate which stands at 108.9 in comparison with the normal production. The production of rye, the next greatest human food cereal, with eighteen hundred million bushels, stands at 99 for the year, barley stands at 107.7, oats at 102.3 and sugar beet at 102.05, corn alone of all the great crop features showing a falling off, the world's aggregate of 6,044,000,000 representing a production of only 85. The world's cotton for 1913 stands at 102.1.

The world's capital, so the political economists tell us, never represents more than the aggregate value of two years' crop, and the expansion and shrinkage of capital from year to year depends exactly upon the annual production of agricultural wealth, production of every other class being naturally contingent thereon.

The explanation of the financial stringency given by the sharps and experts of the money market is that hundreds and hundreds of millions of dollars burned up in the Balkan war and other hundreds of millions locked up in fear of a general European war have run the world short of liquid capital. The statistics of the world's agricultural production constitute the best guarantee that the shortage is being quickly banished by the production of new wheat.

## CO-OPERATIVE ELEVATORS WIN IN SASKATCHEWAN

Notwithstanding the gloomy picture presented by those who fought against applying the principle of co-operation to the elevator business in Saskatchewan, that business has developed under co-operative principle beyond even the hope of those who were responsible for its existence.

During the year closed in July last, these elevators handled 12,899,630 bushels of grain, over four millions of which was purchased by the company and the balance specially binned for the farmers. One hundred and thirty-seven elevators are being operated, 50 new ones built this year and several old ones remodelled.

There are 192 of the company comprising 13,156 shareholders holding a total of 39,352 shares.

Ample proof may be advanced to show that the company's operations are satisfactory to the farmers. Among these the patronage is not the least. In 1911, 3 1/4 million bushels with 46 elevators was the record. In 1912, 13 million and 137 elevators. In 1913, over 13 million and 192 elevators.

## RAILWAY POLICY SUBJECTED TO THE TEST OF TIME

All those who, a little over a year ago, were busy themselves proclaiming to the world that the government's railway policy was a policy of paper railways, and especially those conservative members of the house who made a dead set upon the MacArthur railway, should now feel constrained to make a note of the fact that the MacArthur road is built and running to the Athabasca river, thereby completing the first link in the system which is to open to development the new north country of which Edmonton is the hub.

The cry of paper railways was very adroitly used by the opposition in the election by which the present government was returned. Now that the roads are actually being built, electors may draw their own conclusion as to whether or not the province would have been better off to have accepted the word of the opposition and to have cancelled the railway policy upon which the government depended for election.

## ANOTHER TRANSCONTINENTAL OPENS TO EDMONTON

January 21, says William MacKenzie, he will travel from Toronto to Winnipeg over Canadian Northern rails, and nine months later he hopes to travel from Toronto to Vancouver over the completed transcontinental.

In Edmonton here, with the construction gangs having come and gone, one is likely to become oblivious to the fact that the construction of the transcontinental is still in progress. On the eastern end a gigantic work is just now being brought to a close, while on the western end the gap between Fort Mann and Edmonton is being closed at a pace which sets an entirely new record for railway construction.

The completion of the eastern end puts Edmonton in touch with the east over a new road. In the course of a very few weeks it will be possible to receive goods in Edmonton over the C. N. R., the C. P. R. or the G. T. P.

## SCHOOLMASTER SCORES IN EVERY ROUND

On the same day on which the telegraph trust came down off its high horse and notified the United States government's trust busters that it intended hereafter to keep inside the reservation and obey the law, the United States senate gives the currency bill the final quip and resigns itself to the inevitable by sending the bill down the chute again for the ratification by the house.

Previous presidents in United States have seen their prestige perish and their power crumble when they went up against the Gibraltar of special interests. The school master, so far, has scored a solar plexus in every round.

## Tired Blood

## CAS METERS TO NUMBER OF 381 DEFECTIVE AND REJECTED AND CONDEMNED

Ottawa, Dec. 23.—Of nearly 95,000 gas meters tested by the inland revenue departments in different parts of Canada during the past year more than 381 were found to be defective and were rejected and condemned.

Of this number there were 235 which were cheating the gas company by running too slow and 523 from which the consumer was getting the short end. There were also 15,700 which were running a little fast but not beyond the allowed margin. On the other hand there were 15,500 a trifle slow, saving money for the consumer. Out of 14,400 electric meters tested only 139 were rejected. Of these 85 were under 45 and 45 fast and 59 too slow.

## More Lives Sacrificed.

Paris, Dec. 23.—Fresh eruptions have caused further destruction of life among the natives of the Island of Ambur in the New Hebrides group, according to a report received Monday at the French ministry of marine. From the captain of the French gunboat Kersaint on his arrival at Noumea, the capital of the island.

Dipl. point, on the west coast of the island, has been buried beneath a heavy fall of clanders and many of its inhabitants are missing.

CAMROSE TO HOLD BONSPIEL  
JANUARY 6-7-8 HAVE BIG RINK

## CAMROSE CURLING CLUB TO HOLD FIRST ANNUAL BONSPIEL JAN. 6-7-8

Over \$1000 in Prizes—Three Days of Fun and Friendship—List of Events, Prizes, Rules and Regulations—Edmonton and Strathcona Will Send Rinks.

The prosperous town of Camrose is the first in the field of curling this winter and announce their first annual bonspiel to be held January 6, 7 and 8. A neat pamphlet has been gotten out, showing programme of events, list of prizes and rules and regulations. As it is impossible for the Camrose club to reach all the curlers who may wish to attend the bonspiel by mailing the pamphlets, we take pleasure in publishing the programme, etc. in full. Entries have already been received from Edmonton, Strathcona and other Alberta towns. Camrose has a splendid curling rink with sheets of ice and no outside curling will be necessary. Geo. E. Measum is chairman of the Camrose curling club. Following is the programme.

**First Event—Grand Challenge**  
Trophy presented by Geo. F. Smith, M. P. C.  
First Prize—Cup valued at \$50.00 and four Gold Watches, valued at \$80.00.  
Second Prize—1 sweater Coats, valued at \$40.00.  
Third Prize—1 Set Military brushes, valued at \$25.00.

**Second Event—Hatekeepers**  
Trophy presented by Constance David, Windsor Hotel.  
First Prize—Cup valued at \$200.00 and 4 Sets GLIDE Pipes four pieces each set, leather case, valued at \$120.00.  
Second Prize—1 Curling Coats, valued at \$40.00.  
Third Prize—1 Set Military brushes, valued at \$25.00.

**Third Event—Cut Glass Competition**  
Trophy presented by Constance David.  
First Prize—Cup, valued at \$50.00 and 4 Chafing Dishes, valued at \$60.00.  
Second Prize—1 Cut Glass Jelly Dish, valued at \$40.00.  
Third Prize—1 Cut Glass Celery Dish, valued at \$25.00.

**Fourth Event—Consolation**  
First Prize—Cup, valued at \$50.00 and 4 Chafing Dishes, valued at \$60.00.  
Second Prize—1 Weideworth Tea Set (4 pieces to each set) valued at \$40.00.  
Third Prize—1 Hunting Knives, valued at \$15.00.

**Grand Aggregate**  
The rink winning the largest number of games in the first three events.  
Four Silver Loving Cups, valued at \$25.00.

**Rules and Regulations**  
1.—The cups offered for competition remain the property of the Camrose curling club. Winners may retain cups until November 15, 1914, by providing satisfactory bond.  
2.—Draw for the Grand Challenge will be made at the rink on Tuesday morning, January 6, at 9 a.m., sharp. All entries to be no later than 5 p.m. Monday, January 5.  
3.—All games to be governed by Royal Canadian rules.  
4.—The winning of the third prize in each event will be decided by a game between losers in semi-finals. This game shall not count in the Grand Aggregate.  
5.—The decision of the official umpire to be final in all disputes.

**Officers 1913-1914**  
Patrons—F. P. Layton, Frank Pike, Hon. president, G. P. Smith, president, J. O. Ramsey, vice-president, W. J. McKay, secretary-treasurer, C. J. Bailey.  
Executive—J. Watson Young, John Douglas, R. W. Forbes, James Pike, Bonspiel committee—Chairman, Geo. E. Measum, F. P. Layton, Frank Pike, W. V. Lamb, Hiram Birgar.  
Umpires—D. C. Ramsey, G. E. Measum, W. J. McKay, James Pike.

## ICE YACHTING TO THE FORE

The ice yachting season throughout the country promises to be interesting in the extreme, although so far as the east is concerned the warm fall and warm early winter delayed matters considerably.

In the middle west lake region the ice races are making plans for a national and an international championship contest at Kalamazoo.

In the end the season ever made in a race was by the Jack Frost, owned by Archibald Rogers of Hyde Park. This yacht, in 1908, sailed 20 miles in a race in 49 minutes 30 seconds.

On the Shesapeake the Scott, which in racing shape has been credited with having made a mile and a quarter in 42 seconds. According to a published record, the fastest time ever made in a race was at Kalamazoo, Mich. In 1907 the Vindicator, a race of 20 miles and having to make a turn every two miles, finished in 39 minutes 50 seconds. Frederick H. Hall, the best time was 47 minutes, made by the Widgeon in 1904.

Ice yachting is a fascinating sport, and the speed with which the boats race over the ice gives just that touch of danger to make it exciting. Often a boat will spill or break down and its occupants be sent spinning over the ice in one direction, while the boat will go off before the wind in another direction.

Some iceboats are rigged with 5th and mainmast, and others with the lateen sail, and on the latter is divided as to which is the better. The iceboats are built with steel runners at the end of a long arm on each side and another runner at the rudder. The helmsman is at the after end of the yacht, and the guests usually occupy a hostile position in the center. The yachts are at their best when they get the wind full forward of the beam, and when conditions are favorable they sail faster than the wind.

McFarland says he will show up badger boxing commission

Tuesday McFarlane intends to devote some spare time to his own hands to "showing up" the Wisconsin boxing commission which suspended him for a year on the ground that he "stalled" in his recent fight with Jack Britton at Milwaukee.

McFarlane announced today that he expects to seek an interview with Gov. McAdams to bring about his reinstatement. The commission, he said, barred him because he drew down the largest amount of money since the Wisconsin boxing law was enacted and he pointed to the failure of Kid Williams manager to collect his guarantee as another example of his alleged inefficiency.

"No contention at all is better than the one they have in Wisconsin," was Mackey's final shot.

McAllister is a Comer.

A Montreuxer who saw the bout last week between "Red" McAllister and "Young Mike" Donovan, says the former is evidently a conner. He is young and raw and overgrown, standing close to six feet, but he has a sense and punch. It was a most interesting set to, both men having evidently been well trained in all the tricks of the game. McAllister clearly outpointed his opponent. He was fast as a streak and clever both in attack and defence. His maneuver was his wit about him. The gentleman doesn't think he will ever be a real "white hope." He doubts, in fact, if he has the physique, but he says there's no telling there it is doubtful if Corbett in his best days was any cleverer than McAllister is today, and in their youth they must both have been very much of the same build.

## McDUGALLS LOSE TO COLTS TEAM AT BASKETBALL

Score Was 32 to 22 in Rather an Indifferent Game.

**FINAL GAME FOR  
CHAMPIONSHIP JAN. 1**  
New Schedule Will Be Played After the New Year.

The Colts basketball team qualified for the finals in the senior league last night by decisively beating the McDougalls with whom they were tied. The game proved to be an indifferent exhibition owing to the individual nature of the play. The Colts won by 32 to 22, and showed flashes of basketball, particularly in the first half, but a tendency to indulge in long shots by most of the players rather spoiled the game. In all, 42 long shots were tried, and only four were successful. This does not mean that there is no place for the long shot in the game, but good coordination is usually better. For the winners, Whitlaw, Crozier and Tomkins were in line, while for the McDougalls, Jackson and McKnight were the pick of the losers. Whitlaw was the fastest man on the floor. Jackson played a good steady game. Tomkins in a consistent player. Crozier was always dangerous. The remainder of the game of the schedule will be in New Year's day between the Colts and the old Timers. In the game last night Crozier was high scorer with 15 points. The teams lined up as follows:

Colts	McDougalls
Tomkins	center
Whitlaw	guard
Crozier	forward
McKnight	forward
Hammond	Referee

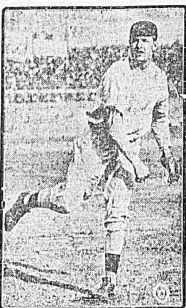

**COLLEGE YELT OLDER  
THAN THE COLLEGES  
KNOWN IN ROME**

That the "Rak, rak," of the college youth is not original with the American college runner, but was a vocal means of giving vent to one's enthusiasm in the days of ancient Rome and medieval Byzantium.

Such was the statement of Ernst von Dobschütz, the German exchange professor of Harvard.

McClaren, driver and trainer of the Ken and other cranks, had a rather serious accident the other day, being thrown while schooling a colt. The animal fell backward on McClaren, who was severely bruised.

## MATTY'S BIG LEAGUE GOSSIP

BY  
CHRISTY  
MATHEWSON  
THE GIANTS' TAP PITCHER

caused two strikes were hung up without a ball and I had him in the hole. Then he showed his gameness by letting a couple of bad ones go. I tried to get him to swing at 'em. Next, he got his hit which drove in the run that tied the game up. I should have worried on him more carefully.

Perhaps because it happened more recently, that Philadelphia situation looks tougher to me now, although I won on it. I was particularly anxious to take that game, since I realize I am getting old, and I did not know whether I would ever be able to achieve another victory in the big event. If the Giants should fail to win the pennant next year, for instance, I might never have another opportunity in the big series.

Therefore, I was thinking and thinking hard when those three men got on the bases with none out in the ninth. The New York infield was up in the air. It looked like the break in the game. Three or four of them walked in to me with words of encouragement.

"Our only chance is to make the plays to the plate and be careful of your throws," was my reply to them. Get back on the job."

The Athletics had not been hanging on many flies during the game because they had been expecting me to throw curves, in fact, had been tipped off to the fact that my sole dependence was a curve ball. It is not generally known outside of the members of the two clubs that I threw very few curve balls in that game. All through it they were looking for me to switch from the fast one to a curve, and they fully expected it in that critical inning, but I decided to stick to my original prescription, which had resulted in so few outfield flies.

There was another angle to it. Of course, there was no use in a play anywhere except to the plate, as the Athletics needed only one run to win. I figured that Murray had the best arm in the outfield and also that he had a strong suspicion of my strategy. I admit it was a relief to me to see a curve coming in, but because I did not fear him as much as I would have feared Schang or some other. Lapp had not been hitting me hard. Mack said, in his magazine story, that he left Lapp in because of his mental attitude, which is a big factor in case of that sort.

"Now get your man down to second, and I'll hit the ball game for you," "Condie" quotes the Athletics' catcher

as exclaiming when he grabbed a bat, "I would have had a long chance. The big outfielder had held us for nine innings, and there was no more chance of him breaking than there was of me." The percentage favored "Plunk" going strong through another inning. A relief pitcher might not have been right at first, probably would not, and if we had hit some newswoman and won the game, there would have been the loss from the second guesser: "Why didn't he leave 'Plunk' in? He was doing all right."

"Yes, I believe 'Condie' Mack was dead right. McGraw, because his system is different, would probably have put some man in to hit for the catcher under the same circumstances."

"Plunk," of course, came back, and beat me in the last game, and through a Cincinnati base hit. I was sover over losing that battle then. I would have been had the Giants been defeated in the 10 inning contest which I won. I saw in a paper recently that the scores are in favor of cutting out the so-called Cincinnati base hit. I hated to think after the last game, that I might have my final appearance in a world's series, that it was a Cincinnati man, and I was afraid of him. He was fathered by Baker, too. And long fly. But Plunk hit as I hoped he would, a short homener to Wilkes. Again we were saved, and the most dangerous phase of the situation passed. Murphy showed one of me in the box, for the last out.

And, by the way, I switched on the Athletics in that game and used practically nothing but curve balls while they were looking for fast ones.

News of the Markets

Winnipeg, Dec. 23.—The wheat market was firm yesterday as generally, receipts were much higher and the southeast was a more bullish character. American flouring factors being more active over the winter wheat belt heavy receipts at Minneapolis and lower Liverpool cables.

Homes Ayrer market opened unchanged and favorable weather there is reported. Winnipeg opened unchanged to 1-8 cent higher, and closed 1-8 cent higher for all months. The market is gradually taking on a holiday character and cash trading is consequently slow.

Exporters were buying moderately for May delivery.

Wheat closed 1-8 cent higher for all grades down to number 1 lower grades unchanged.

Cash oats closed unchanged to 1-8 cent higher.

Cash flat closed 1-8 cent higher. Cash barley closed unchanged.

Live stock market was closed Thursday, Friday and Saturday.

Receipts at the east end yards were 1,100 cars against 1,025 last year.

Under and by virtue of a Distress Warrant given by S. W. Sherman against the building and contents of No. 101, situated at 615 1/2 St., known as a blacksmith shop, the following contents, 1 horse, 2 stalls, 2 bays, horse shoes, 2 forges, 2 anvils, 2 vices, a quantity of blacksmith tools, etc., and one frame building which will be sold by public auction Friday, the 26th day of December, at the hour of 2 p.m., at 615 1/2 St., at 615 of 1913.

XMAS CARDS AT  
METHODIST CHURCH

Two Thousand Five Hundred  
Attend in Evening and Many  
Turned Away.

EVENING SERVICE A TREAT  
Choir of Fifty Voices Renders  
a Program of Unusual  
Merit.

Last Sunday was observed as Christmas Sunday in Methodist church, and the high attendance of the church was noted by the service. The service was held in the evening and the attendance was estimated at 2,500 people. The service was held in the evening and the attendance was estimated at 2,500 people. The service was held in the evening and the attendance was estimated at 2,500 people.

Methodist church was crowded to the very front rank among the churches of Canada, in fact, it is doubtful if many churches on this continent can boast an average attendance at the regular Sunday service of 2,500 people, a record which Methodist church has held for a considerable length of time.

Anyone attending the service last Sunday night would very easily understand the reason for the popularity of this church. The service was held in the evening and the attendance was estimated at 2,500 people. The service was held in the evening and the attendance was estimated at 2,500 people.

The minister part of the service last Sunday night was a treat, the choir of 50 voices rendered a program of unusual merit, while Professor Hall presided at the organ in his usual capable manner, and his collection of 1,500 was well to the credit of the church.

The pastor, Rev. Dr. Armstrong, delivered one of the strongest sermons of the season. His subject was "The Christmas Story," and he dealt with the story of the birth of Jesus in a most interesting and inspiring manner.

INTERURBAN SCHEDULE  
WILL BE MAINTAINED  
THROUGHOUT WINTER

Felix Santallier, general manager of the Edmonton Interurban railway company, stated to the Capital this morning that the new schedule which was inaugurated Saturday morning, has been found to be very satisfactory. He stated that the new schedule will be maintained throughout the winter.

When asked as to the possibility of the company's cars continuing to the centre of the city on city tracks as is the case with radials serving many other parts of Canada and the United States, Mr. Santallier replied that at present such a project was not under consideration.

Mr. Santallier stated that although the present equipment of rolling stock had been made in the United States, all the company's cars and equipment are to be built by the Preston Car company of Preston, Ontario.

What Drive Enjoyed—The second night drive of the season was given last night by the Alberta Car-Motorists' Association. The drive was given by the Alberta Car-Motorists' Association. The drive was given by the Alberta Car-Motorists' Association.

Sherman, Ltd., are to be sold by public auction on Friday, the 26th day of December, at the hour of 2 p.m., at 615 1/2 St., at 615 of 1913.

DON'T DOPE WITH  
ALCOHOLIC "TONICS"

This is honest advice for you who are run down and sick—don't dope with alcoholic "tonics." We're backing this advice with our personal guarantee of satisfaction to you, or your money back.

There are a lot of so-called "tonics" on the market that do not depend for their short-lived popularity on any real merit they possess, but on the fact that the alcohol in most of them is a real blood and nerve-forming drug. It contains no alcohol nor any other dangerous or habit-forming ingredients. It is made entirely from pure, natural, and healthful ingredients.

You who are weak and run-down, and who are apparently well, but are really suffering from various ailments, such as indigestion, nervousness, or debility, need this tonic. It is a real blood and nerve-forming drug. It contains no alcohol nor any other dangerous or habit-forming ingredients. It is made entirely from pure, natural, and healthful ingredients.

Take real medicine that will do you good, that will supply to your system the strengthening, disease-fighting and disease-resisting ingredients it needs. Take Real Olive Oil Emulsion. It is a real blood and nerve-forming drug. It contains no alcohol nor any other dangerous or habit-forming ingredients. It is made entirely from pure, natural, and healthful ingredients.

The Problem of What to Give Solved in Index  
Form for Final Day Shopping

THIS WILL BE the busiest day of all the year, but we think you will find gift shopping here a pleasure even up 'til the final hour. We have done everything possible to eliminate discomfort for those who have been unable to finish up their shopping until the final day. Below you find the problem of what to give solved in index form, simply find yourself in the top of columns and read down.

THIS STORE WILL BE OPEN tonight  
(Tuesday) and Wednesday night until 10  
p.m.

YOU CAN HELP THIS STORE'S good  
service by taking small parcels with you and  
shopping early.
